Noble/The Arc of Greater Indianapolis' efforts on behalf of individuals with disabilities are guided by several position statements. These statements, which are in accord with the mission of The Arc of the US and The Arc of Indiana, represent our core values that each person—regardless of ability—is entitled to the same rights and benefits.

One of the most important tasks of The Arc is advocacy on issues affecting individuals with disabilities and their families. By visiting our website at www.mynoblelife.org, you'll find information on:

- State and federal legislative issues that affect you
- Who your representatives are and how to contact them
- Links to other advocacy organizations

Our government leaders in Washington, D.C. and Indianapolis are there to represent us when they consider legislation and funding issues. It's important for each of us to be informed and let our elected leaders know how these issues affect us.
