Center for Family Leadership forums
are generously supported by the
Harriet P. Irsay Endowment Fund.

hosted by the Noble
Center for Family Leadership

Our Presenter

As a Behavioral Clinician, Patrick Jamison, LMHC, works with Noble staff in identifying those who would benefit from Behavioral Services while ensuring that the appropriate supports are in place to help those on his caseload receive the support they need to achieve their life goals. In doing so, he has helped many students and families get through the school years.

As a parent of a son on the Autism Spectrum, he also knows first-hand the challenges posed by transitions like going back to school.

Bring your questions and share your challenges so we can collaborate on solutions that may work for your family.
