FREE!

Our Presenter

Jennifer Akers is the Project Director for the Family to Family Health Information Center at Family Voices Indiana. She lives in Westfield with her husband, Joe. Her passion for assisting other families comes from her personal experiences with her own child.

Her daughter, Grace, was born with two rare genetic syndromes: Moebius and Pierre Robin. She had complex special health care needs and disabilities. Jennifer has had to navigate the confusing maze of programs and services, and hopes to use that knowledge to help others. As a former teacher, she strives to help others learn the skills they need to be the best advocates for their children.
