Dream it. Live it.

When a child turns 18, they become a fully independent adult with important health, education, finances & residential living decisions. The range of assisted decision-making options offer solutions for families in all sorts of situations—and can be combined to meet their needs.

OUR PRESENTER

CARRIE LE is Indiana Family to Family's Training & Communication Coordinator. She oversees INF2F's training program, communication outlets including social media, and represents the family voice by serving on several committees. Carrie is driven to give back to others as her own family benefitted from support while navigating their journey of raising children with additional healthcare & education needs. Carrie is eager to share her knowledge & experiences by helping other families & professionals find success too.
